Terms and definition

Voluntary and community sector

The Voluntary & Community Sector (VCS, sometimes referred to as the Third Sector), is the term used to describe the range of organisations which are neither state nor the private sector. It includes organisations such as associations, self-help and community groups, voluntary organisations, social enterprises, housing associations, mutuals and co-operatives. Such organisations are sometimes, but not always, charitable (as defined in law) but may be registered charities. VCS Organisations are independent of government; 'value-driven' – that is, they pursue social, environmental, or cultural objectives rather than primarily aiming to make profit; they reinvest any surpluses, or in the case of Social Enterprises all surpluses, in the pursuit of their objectives.

A **constituted group** is a **group** of people who come together to further any objective; in this case, to support children and young people. The **group** is run on a voluntary basis and is set up as a small organisation in its own right, with a management committee, constitution, and its own bank account.

This document is expected to be read in conjunction with the Space 2 Grow Children and Young People's Fund (no.34) Terms and Conditions.
